ABSTRACT

As a linguistic discipline, the critical point of teaching English is to cultivate students' comprehensive language application ability in listening, speaking, reading, and writing. Moreover, the cultivation of ability requires authentic linguistic context. The intelligent learning environment can provide a more authentic English situation in the intelligent inquiry teaching model and help students' better familiar with communication methods. What is more, it attaches great importance to students' learning process, such as discovery, induction, and evaluation, as a result, to promote and develop students' intelligence. Based on intelligent inquiry teaching mode research, this article chose the E-book Bag as the learning environment. It focused on its improvement and application in primary school English teaching.
